

MY BAY CHURCH TERMS OF USE

What is My Bay Church?

A cloud-based "Church management software for the engaged church community." That's the technical terminology. My Bay Church (also known as Church Community Builder {CCB}) is an internet-based program you can use as a directory, to make contributions and keep track of your giving, keep your contact information current, and stay connected with the groups of people you are involved with.

As an online member of My Bay Church, you are welcome to use and become part of our online community at <https://thebay.church/mybaychurch/>. **Only individuals who are currently active in our database will be provided access.** When you log in, you will be able to see your own profile information, see the groups you are participating in and the positions you hold, access your giving information, explore events you might be interested in, easily communicate with other members, and much more! You can update your profile information to make sure our records are correct and allow other people in the community to get to know you better. We hope you enjoy our online community!

Is my information private?

While our database contains everyone, who is on our mailing list and our website is public, our online community is private and only those who have usernames and passwords assigned to them can join. After your request has been processed, you will be emailed login information. If you choose to participate you can decide whether your profile will be "listed" to other online members or "unlisted".

Unlisted profiles are not seen by anyone beyond our staff and key leaders. Listed profiles can be found by other members, and you can adjust who can see what information in your profile from your privacy settings. To encourage interaction in the community, all profiles will default to listed unless you request to be unlisted.

How do I use My Bay Church?

The best way to see what My Bay Church is about is to visit the website and use your login and password to look around. If you decide you do not want to be part of the community, you can, at any time, request to be unlisted or merely stop using it. We hope you will be able to get better connected by participating in discussions or looking for groups that may be of interest to you and then joining one!
